

YouWealth High Growth Fund

Fund Update

Fund Update for period to 30 September 2024

This Fund Update was first made publicly available on 24 October 2024.

What is the purpose of this update?

This document tells you how the High Growth Fund (Fund) has performed and what fees were charged. The document will help you to compare the Fund with other funds. BNZ Investment Services Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this Fund

The High Growth Fund invests primarily in growth assets, which generally have higher levels of risk with the potential for higher returns. It may also allocate investment to income assets, which generally have lower levels of risk and potential returns. It aims to achieve the highest returns of the Funds over the long term.

Total value of the Fund	\$19,176,961.91
Date the Fund started	28 November 2023

What are the risks of investing?

Risk indicator^{1,2} for the High Growth Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund’s assets goes up and down (volatility). A higher risk generally means higher

potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 30 September 2019 to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future Fund Updates.

See the YouWealth Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deductions for charges and tax)	21.89%

An annual return is not available for this Fund as it has not been in existence for more than a 12-month period.

The market index (benchmark) return is a composite based on the benchmark indices for the asset classes that make up the Fund’s target investment mix. Additional information about the benchmark indices is available on the offer register (search for YouWealth) at companiesoffice.govt.nz/disclose

What fees are investors charged?

Investors in the High Growth Fund are charged Fund charges. Based on the PDS dated 1 May 2024, these are expected to be (excluding GST):

	% of net asset value
Total fund charges	0.45%
<i>Which are made up of:</i>	
Total management and administration charges	0.45%
<i>Including:</i>	
Manager's basic fee	0.45%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

See the YouWealth PDS for more information about these fees. This can be accessed from the Disclose Register at companiesoffice.govt.nz/disclose

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor³

John had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year John received a return after Fund charges were deducted of \$2,156.11 (that is 21.56% of his initial \$10,000). John also paid \$0.00 in other charges. This gives John a total return of \$2,156.11 for the year.

What does the Fund invest in?

This shows the types of assets the Fund invests in.

Actual investment mix⁴

This shows the mix of assets the Fund generally intends to invest in.

Target investment mix

Currency hedging

Currency hedging may be used to mitigate the impact of currency movements on investments in foreign securities. As at the date of this Fund Update, the Manager applies the following currency hedging ratios:

- 70% of Fund's international equities exposure
- 100% of the Fund's Australian equities exposure within the Australasian equities asset class.

The Statement of Investment Policy and Objectives (SIPO) sets out the policy for our currency hedging strategy in Section 7 and is available on the Scheme's Disclose Register entry at companiesoffice.govt.nz/disclose

Top 10 investments⁵

	Name	% of fund net assets	Type	Country	Credit rating (if applicable)

Notes

1. As the Fund has been operating for less than five years, we have used a mix of actual and market index returns for the five-year period to 30 September 2024 to calculate its risk indicator. This means it may provide a less reliable indicator of the potential future volatility of the Fund. The inception date for the High Growth Fund was 28 November 2023. The High Growth Fund's risk indicator is based on market index returns from 1 October 2019 to 30 November 2023 and actual returns from 1 December 2023 to 30 September 2024.
2. Because the risk indicator is calculated using the past 5 years' worth of returns, in periods of high return volatility the risk indicator is more susceptible to change from time to time.
3. As the fund started on 28 November 2023 it has not been in existence for a full scheme year. This example is based on the market index return for the period adjusted for after-tax fees.
4. The calculation of cash and cash equivalents within the actual investment mix allocation may include investor flows not yet unitised, liquidity cash and fund accruals but excludes cash and cash equivalents held by our investment managers for operational and hedging purposes which are categorised within the asset class to which they apply.
5. Investor flows not yet unitised, unsettled trades, currency hedging gains (or losses), collateral positions held for derivative or hedging purposes, and any operating accruals, are excluded from the Top 10 investments.
