

Fund Update

For quarter ending 31 December 2022

This Fund Update was first made publicly available on 27 January 2023.

What is the purpose of this update?

This document tells you how the Balanced Fund (Fund) has performed and what fees were charged. The document will help you to compare the Fund with other funds. BNZ Investment Services Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this Fund

The Balanced Fund invests largely in growth assets, which generally have higher levels of risk with the potential for higher returns. It also has a sizeable allocation to income assets which generally have lower levels of risk and potential returns. It aims to achieve a medium level of return over the medium to long term.

Total value of the Fund	\$186,336,941.72
Date the Fund started	21 May 2018

What are the risks of investing?

Risk indicator¹ for the Balanced Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 31 December 2017 to 31 December 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future Fund Updates.

See the YouWealth Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?

	Past year
Annual return (after deductions for charges and tax)	-12.08%
Annual return (after deductions for charges but before tax)	-12.88%
Market index annual return (reflects no deductions for charges and tax)	-11.55%

The market index (benchmark) return is a composite based on the benchmark indices for the asset classes that make up the Fund's target investment mix. Additional information about the benchmark indices is available on the offer register (search for YouWealth) at companiesoffice.govt.nz/disclose

Annual return graph

The graph shows the return after Fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 31 December 2022.

Important: This does not tell you how the Fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

Market index returns do not include Fund charges or deductions for tax.

Example of how this applies to an investor

John had \$10,000 in the Fund at the start of the year and did not make any further contributions. At the end of the year, John incurred a loss after Fund charges were deducted of \$1,208.00 (that is -12.08% of his initial \$10,000). John also paid \$0.00 in other charges. This gives John a total loss of \$1,208.00 for the year.

What fees are investors charged?

Investors in the Balanced Fund are charged Fund charges. In the year to 31 March 2022 these were (excluding GST):

	% of net asset value
Total fund charges*	0.59%
<i>Which are made up of:</i>	
Total management and administration charges	0.59%
<i>Including:</i>	
Manager's basic fee	0.59%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

*The total fund charges for the Fund were reduced to 0.45% p.a. from 28 September 2021.

See the YouWealth PDS for more information about these fees. This can be accessed from the Disclose Register at companiesoffice.govt.nz/disclose

Small differences in fees and charges can have a big impact on your investment over the long term.

What does the Fund invest in?

This shows the types of assets the Fund invests in.

Actual investment mix^{2,3}

This shows the mix of assets the Fund generally intends to invest in.

Target investment mix

Currency hedging

Currency hedging may be used to mitigate the impact of currency movements on investments in foreign securities. As at the date of this Fund Update, the Manager applies the following currency hedging ratios:

- 100% of the Fund's international fixed interest exposure
- 70% of Fund's international equities exposure
- 100% of the Fund's Australian equities exposure within the Australasian equities asset class

The Statement of Investment Policy and Objectives (SIPO) sets out the policy for our currency hedging strategy in Section 7 and is available on the Scheme's Disclose Register entry at companiesoffice.govt.nz/disclose

Top 10 investments⁴

	Name	% of fund net assets	Type	Country	Credit rating (if applicable)
1	Fisher & Paykel Healthcare Ltd	2.16%	Australasian equities	New Zealand

Notes

1. As the Fund has been operating for less than five years, we have used a mix of actual and market index returns for the five-year period to 31 December 2022 to calculate its risk indicator. This means it may provide a less reliable indicator of the potential future volatility of the Fund. The inception date for the Balanced Fund was 21 May 2018. The Balanced Fund's risk indicator is based on market index returns from 1 January 2018 to 31 May 2018 and actual returns from 1 June 2018 to 31 December 2022.
2. The calculation of cash and cash equivalents within the actual investment mix allocation may include investor flows not yet unitised, liquidity cash and fund accruals but excludes cash and cash equivalents held by our investment managers for operational and hedging purposes which are categorised within the asset class to which they apply.
3. Australasian equities and international equities may include an allocation to listed property securities.
4. Investor flows not yet unitised, unsettled trades, currency hedging gains (or losses), collateral positions held for derivative or hedging purposes, and any operating accruals, are excluded from the Top 10 investments.
